

## Clarification No.1

### FWA 611 : TENDER FOR THE PROVISION OF STAFF TRAINING SERVICES

We refer to the following queries;

---

Q1: I have 2 potential key experts that I would like to work with, can I supply 2 different tenders? Section 7 is not very clear especially section 7.4 which is contradicting itself.

A1: *As in Section 7.1 - A tenderer may submit multiple tender offers, provided that all submission requirements are met for each separate tender.*

Q2: When I am calculating the financial bid am I assuming that these modules are done only once?

A2: *Yes.*

Q3: There are some courses which we there is defiantly a maximum number of people per session which is 10, what is the approximate number of people that will be trained under this tender?

A3: *Maximum number of people per session is 20.*

Q4: With regards to First aid and fire is the foundation assuming that the trainees will be qualified first aiders and trained in Basic fire awareness? If so the allocated time is defiantly not enough as it should be at least 24 hours.

A4: *Trainees are not necessarily qualified first aiders. Duration is 8 hours as per Module 5 Section 2.2.*

Q5: In the tender there are indicated various titles of modules and the amount of hours for each, that you are suggesting. Are these times fixed, or is there the possibility of increasing the amount of hours for the duration of the particular module/course? Do you have any more guidelines re each module, in order for us to understand better what you would be expecting from the training?

A5: *All times are fixed as indicated in the tender document*
